

WeldTec®

Stubby™ TIG Torches

“Stubby” Torches offer unprecedented versatility for light duty TIG welding.

- Interchangeable heads
- Light weight and compact
- Better weld puddle control
- Less hand and wrist fatigue

Ten interchangeable heads that can be changed in seconds allowing access to the most difficult weld locations. Ideal for all kinds of intricate welds. One torch body, ten heads.

The soft flexible rubber handle is easy to hold without strain or tension of the hand or wrist.

The super flex rubber power cable is the most flexible in the industry, over braided with non-flammable yarn for durability.

Made in America.
